

KACO PV Seminars

NABCEP Certified Technical Training

What will you learn? Taught by industry veterans, the KACO training program has been attended by solar installers all over the United States to increase their knowledge of code compliance issues, general solar knowledge, systems design and incentive information. The KACO PV Seminar is broad reaching yet focused on the issues that affect the seasoned and the new solar installer.

Certification. Participants who complete this training will receive three NABCEP continuing education credits. Individual participants will receive an official KACO certificate of completion.

Registration. Please fill out this form and email to training@kaco-newenergy.com or fax it to 415-931-1688.

Fee. The KACO PV Seminar is \$125 per person.

Seats are available on a first come, first served basis.
